

DYUTIMAN BHARADWAJ

Software Developer (AI/ML & Data Science)

+91-7397288605 | dyutiman2003@gmail.com | [Linkedin](#) | [Github](#)

PROFESSIONAL SUMMARY

Results-driven Data Science and Software Development professional with **deep** expertise in Python, SQL, and Machine Learning. Proven ability to deliver impactful AI-driven solutions, demonstrated by a research publication in NLP and **significant** hands-on experience in software development and geospatial analysis. Passionate about leveraging data to solve **complex, real-world** problems and contribute to technology-focused organizations.

EDUCATION

Vellore Institute of Technology

Integrated MTech in Computer Science and Engineering, CGPA: **9.06/10.0**

- Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, Database Management, Operating Systems, Data Science and Business Analytics

Bhopal, India

Expected: May 2027

SBOA High School

High School Diploma (CBSE), Percentage: **94%**

Chennai, India

Completed: July 2021

EXPERIENCE

Bluestock Fintech

Software Development Intern

Pune, India, Remote

October 2025 – Present

- Engineered 3+ backend features and integrated 2 major financial APIs, boosting data processing efficiency by **15%** and retrieval speeds by **20%**.
- Championed code quality in an agile team via rigorous code reviews, reducing post-deployment bugs by **10%** and ensuring **90%+** test coverage.

India Space Academy

Remote Sensing & GIS Intern

New Delhi, India, Remote

July 2025 – August 2025

- Spearheaded** a geospatial analysis project utilizing Python and QGIS to interpret multi-spectral satellite data, enhancing the accuracy of hydrological feature mapping by over **15%**.
- Developed** a data processing workflow using the NDWI algorithm to automate the extraction and delineation of water bodies, reducing manual analysis time by **30%**.

PROJECTS

AI-Powered Language Translator | Python, Hugging Face Transformers, Streamlit, Flask

July 2025 – August 2025

- Developed** a high-performance translation model for **200+ languages** using Hugging Face, achieving **95%** accuracy and publishing the methodology in a peer-reviewed journal (**Impact Factor: 8.536**).

Intelligent Sentiment Analysis System | Python, Scikit-Learn, NLTK, NLP

April 2025 – May 2025

- Constructed** a sentiment and spam detection model with **92%** accuracy on 50,000+ comments, designing a modular architecture that cut new classifier integration time by **50%**.

Medical Image Classification | Python, TensorFlow, Keras, VGG16, Open CV

January 2025 – February 2025

- Built** a high-precision diagnostic model achieving **98%** accuracy by leveraging transfer learning with a fine-tuned VGG16 architecture, significantly improving anomaly detection.

LEADERSHIP AND ACTIVITIES

TEDxVITBhopal

Social Media & PR Outreach Head

Bhopal, India

August 2025 – Present

- Directed social media and PR strategy, boosting community engagement by 30% through targeted content on Instagram and LinkedIn and expanding event reach via strategic media outreach.

Muskurahat Foundation

Fundraising & Outreach Intern

Mumbai, India

September 2025 – October 2025

- Led** fundraising and digital outreach campaigns across 3+ platforms, reaching over **500** individuals and increasing supporter engagement by **20%** to advance child welfare initiatives.
- Tutored 150+** children of grades 1-3 in English and Mathematics under the Muskurahat project.

SKILLS & HOBBIES

Technical Skills: Python | SQL | C++ | JavaScript | TensorFlow | Keras | Scikit-Learn | Hugging Face | NLTK | React.js | Node.js | Streamlit | HTML/CSS | Tailwind CSS | REST APIs | Flask | Numpy | Pandas | OpenCV | Git | Docker | QGIS | Tableau | Amazon AWS

Languages: English (Native, Bi-lingual) | Spanish (Beginner) | Hindi (Native, Bi-lingual)

Certifications: Data Analytics Job Simulation – Deloitte | NPTEL – Cloud Computing Certification | Cloud Computing & Machine Learning Badges - AWS Educate | Advanced Database Management – Udemy
